Chapter 10: Principles of Adult and Experiential Learning in Nursing Education

- ☐ Concrete Experience: "Walk me through what happened, in order."
 - ☐ Reflective Observation: "What did you notice — in the patient, in yourself — as it was happening?"
 - ☐ Abstract Conceptualization: "What's the general principle here? What would you tell a classmate about this kind of situation?"
 - ☐ Active Experimentation: "What will you do differently, or the same, next time you're in a similar situation?"
