

Structured Debrief Script (Gather–Analyze–Summarize)

Chapter 13: Case-Based and Simulation-Integrated Teaching

Gather: "Tell me what happened, from the start." (Let the student narrate without interruption.)

Analyze: "What were you thinking at that point? What did you expect to happen?" (Explore the reasoning, not just the actions.)

Analyze: "What surprised you? Where did it not go the way you expected?"

Summarize: "If you had to teach this scenario to someone else, what's the one thing you'd tell them?"
